## MORE NEW PARTS!

### Spare Tire Cover \$89.95 Trimmed in Red or Turquoise Piping

Add a little custom flair to your Met with these covers, made from durable smooth grain vinyl to compliment the car's interior and trimmed to compliment your paint. The turquoise goes nicely with Berkshire Green or Carribean Blue.

### Spare Wheel Cap \$49.95

Replace your dented, rusted or missing spare wheel cap with this new reproduction fiberglass cap. It is made to the same dimensions as the original with all the correct holes for mounting and wiring. It will never rust!

### Polyurethane Leaf Spring Bushing Kit \$114.95

Whether you need to replace your deteriorated leaf spring bushings, or you want to upgrade the feel of your suspension, this kit gives you everything you need to stiffen up the ride a bit. Polyurethane lasts much longer than rubber as well. All mounting hardware is included.

### Polyurethane Control Arm Pivot Pin Bushing Set \$92.00

These performance bushings will help tighten up the feel of the front suspension and steering on your Met. Whether you are looking to replace the worn out rubber bushings or you are looking to upgrade, these are a direct replacement for the originals and will last much longer. Includes 16 bushings & grease tube.

### Horn Button Bezel \$41.75

We now offer a brand new powdercoated metal bezel for your horn button. The bezel is made to the exact dimensions of the original and has a beautiful semi-gloss durable finish. This is an often overlooked detail in the interior, and this replacement will look much better than the faded, cracked or broken Bakelite original bezel.

### Choke Cable Sleeve \$39.95

This is a perfect reproduction of the original sleeve, made to the specifications and triple chrome plated. Finish off your restoration or add some beauty to the interior by replacing your broken or missing sleeve.

### Sway Bar Kit \$409.50

Includes front & rear sway bars and all hardware. The first and only sway bar kit designed specifically to work on a Metropolitan. This eliminates the "sway" caused by large trucks or heavy winds and controls body roll when cornering. Made from solid steel and powdercoated black, the bushings and end links are urethane and will never need replacing. Both sway bars are direct bolt-on and all hardware is included. Only one hole will need to be drilled in each lower control arm to accommodate the front sway bar end links. Although your Met is not a sports car, it can now handle like one!
